Please share any thoughts here::

Pilot/total plan is ripe with legal problems. The board has been negligent in corralling/guiding the WC. Who's running the HOA, the board or the WC???? The board has hardly ever enforced the riparian area. Rewarding the scofflaws with a beautiful back yard at everyone's expense is UNACCEPTABLE!!!!!!!! And probably illegal.

Please share any thoughts here::

The pilot project greatly benefits the few, perhaps a Board member, paid for by the majority. This is a problem for the majority? I would suggest spending the \$250k on restoring that which would most improve the pond ecosystem for the majority. I would suggest a 5 year plan to complete the restoration.

Yes,

Please share any thoughts here::

There was discussion on increasing water flow and that should be considered before we get into the expense of dredging. Try alternative ways before we go to the expense of this project. We should investigate lower cost options since no significant work on this has been done in the 30 years I have lived here.

Please share any thoughts here::
 Not fair to home owners that don't even share in the ponds. We have shared in the special assesments for the tennis courts, the pool & club house, the fences, etc. etc., as a result our HOA dues have increased. We are retired and living on a fixed income. To think that everyone should pay anywhere between \$8,000- 11,000 dollars is totally off the mark!! We don't have a pond within a half a mile of our house and don't feel we should pay for those that do. A new " formula" for who pays what, needs to be " re-calculated!

Please share any thoughts here::

I am not certain we need to do ponds which are in Silverwood Subdivision. What would the cost and quality of the waterway be if those ponds were deferred until much later? Incidentally, I live on the northern pond in Silverwood..
